

MATTHEWS MEMORIAL BRONZE

Certificate of Full Warranty

The quality of bronzes of antiquity has survived countless centuries of exposure without adverse effects.

The top quality Matthews Bronze Memorial which you have selected is an individual masterpiece handcrafted to hold everlastingly in sacred memory the name it bears. This is our pledge to you.

It is hereby certified by Matthews International Corporation to the cemetery and to the lot owner as ultimate purchaser,

1. That the bronze used in creating this memorial will endure normal exposure to the elements without decomposition.
2. That the casting is dimensionally correct within normal tolerances.
3. That the bronze alloy used in creating this plaque contains not less than 87% copper.
4. That letters, numerals, ornamentation and insignia are hand-chased, finely buffed, and highlighted.
5. That only the highest quality finishes have been applied to this memorial. However, because of varying atmospheric conditions, these finishes cannot be guaranteed. In time, the finishes will be replaced by the soft appearance of natural patina.

Thank you for purchasing a Matthews bronze memorial.
